Rob Rusniaczek

Trainer/Business Consultant

Background

As an engineer and entrepreneur, Rob Rusniaczek has over 25 years of experience in business, product design, product development, computational fluid dynamics, finite element analysis, automated manufacturing and product life cycle management. Rob has worked in the family business at Air Tech Heating, Inc. As Director of Operations at Air Tech, Rob was responsible for HVAC sales, service management, employee management, implementing technologies, work processes and day-to-day operations.

Rob is a passionate servant leader with tremendous energy. He seeks to understand the status quo and helps companies redefine the business and process pain points to create alignment and success.

Accomplishments

Rob has a Bachelor of Science Degree in Manufacturing Engineering from Boston University and has studied as a Lean Six Sigma Black Belt specializing in finance at Villanova University.

Rob served in the US Navy as a submariner and trained in the Naval Nuclear Program. He has worked with Fortune 100 companies such as GE Healthcare and John Deere and successfully implemented global systems to enable DABA, Design Anywhere Build Anywhere.

Rob has also consulted with numerous smaller companies redefining and streamlining business processes which have dramatically increased net profits.
