

The Unfiltered Truth About Money

By: Larry Winget

Short Description of the Presentation:

The average 50 year old in this country has \$2,500 in savings! Why? Very few people know how to handle money. This presentation is an eye-opener. Picture yourself with money problems and your dad just sat you down for heart-to-heart talk. That is what Larry is about to do...but he is *much more* straightforward than your dad would be. If you want to know the truth about money you are listening to the right program.

You are broke because you want to be!

It's actually pretty simple – Spend less and save more!

Wishful thinking is NOT a wealth strategy – You need a plan

Basic Straight Forward Principles about Money:

- You have to “make a decision” to handle your money properly
- What is your motivation to handle money better?
- Write down where you are financially
 - A) What do you have?
 - B) What do you owe?
 - C) Be willing to change your lifestyle
- Establish priorities
- The more service you provide the more money you will have
- What are you able to live without?

Where you spend your time, energy and money is a direct reflection of what's important to you
